GlobalSource Insurance Investigations

Solving International Insurance Fraud at the Source

As insurance companies expand their coverage to include ever more remote regions of the world, insurance claim fraud is growing in frequency, geographic scope and sophistication. Criminals see potential for ever-larger profits in defrauding insurers, so insurance professionals need providers that can deliver truly global solutions in challenging insurance claim investigation.

GlobalSource has offices in Washington, D.C. and Cyprus, and a network of investigators in North and South America, Europe, Russia, the Middle East, Asia and Africa. Its experienced team of investigative professionals with rich insurance experience are used to meeting these challenges.

International Reach

GlobalSource is comfortable on the global playing field of international insurance investigations. Our typical case can span several time zones and involve looking into issues in multiple jurisdictions. Our insurance clients know that if they need to verify a death certificate from a remote location in Pakistan, check police records of an accident in the Ivory Coast, or obtain medical records in Thailand - GlobalSource can and does deliver the results.

Multi-disciplinary Approach

Insurance fraud cases are rarely straightforward – a fact that GlobalSource addresses with its unique multi-disciplinary approach. Frequently, client requirements may include such diverse tasks as searching public records for an autopsy report, interviewing witnesses, or reviewing financial information – all in diverse places, languages and cultures.

The GlobalSource investigative team is on instant call. It is international in background and multi-disciplined in professional skills. Our investigators and researchers are professionals in finance, banking, insurance, law enforcement and journalism.

The Insurance Team Mentor

GlobalSource takes great pride in providing its clients with a timely, highly professional work product. Our insurance investigations division was for many years headed by John. J. Healy, a legendary character in the field. He managed insurance investigations around the world for thirty-five years before his death in January 2007. Mr. Healy, an irreplaceable expert mentor to GlobalSource investigators, was chairman of the advisory board of the International Association of Coroners and Medical Examiners, and the founder and president of the Eastern Claims Conference (ECC). Founded in 1977, the ECC is the largest life and health insurance conference in the U.S.A.
